

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Publisher's Note.

The list of Princeton Births, Marriages and Deaths comprised in this volume has been prepared under the direction of Francis E. Blake, Esq., of Boston, to whom the Publisher is indebted for much assistance and many valuable suggestions. The materials have been several times revised and compared with original authorities. Some additions to the names and dates found in the Town Books, compiled from church records, burial inscriptions, and from various other public and private sources, are incorporated with the official entries, these being indicated in each instance by proper reference.

All of the records are condensed as much as is consistent with intelligibility and accuracy of information, but differences in duplicates, and explanatory or other matter which seemed desirable or necessary, appear in brackets.

Marriages and intentions of marriage are printed under the names of both parties, but the full information concerning each person is given only under his or her name. An asterisk after a marriage indicates that the intention was not found recorded, and in most cases this is accounted for by the fact that neither party belonged in Princeton, and consequently publishment was made elsewhere.

When places other than Princeton and Massachusetts are named in the original records they are given in the printed copy.

Princeton.

ON the 20th of October, 1759, part of Rutland and certain common lands adjoining were established as a District, which was for several years known as Rutland East Wing. This was incorporated as a town in 1771, and was named Princeton, in honor of Rev. Thomas Prince, pastor of the Old South Church in Boston, and a large proprietor in this tract of land. On the 16th of February, 1810, a part of Hubbards-ton was annexed to its territory, and on the 4th of April, 1838, another extension was made by including a part of the common lands of "No Town," so called.

The population of Princeton in 1791 was 1016; in 1850, 1254; in 1900, 975.
